Over preliminary avocation to (virtual) experimentation upon the feasibility of regional or overall transmission of Human Brain’s Electromagnetic waves – as an EEG Signal configuration – to another Person’s Cerebral cortex, But: REMOTELY - like a modulated Signal of compatible Frequency Magnitude, without implement mediation e.g. microchip, cerebral implants or skull electrodes - IN OPEN AIR and ON ANY GPS PARAMETER. Meaning Emission Interaction from Brain to Brain (B-B Interface) means Radio Antennas sensors and Satellite mediated procedures. Primary schedule runs as: EEG graphic waves properly detected, through specific sensitive appliances are gathered to be Transmitted TO OTHER Participant’s Brain. It follows a detectable Phase Difference Elaboration of those EEGgraphic Signals because these are compatible with Human Brain’s Electrophysiology. Here Not a PC but Cortex is the Decoding matter. Effects are impressive and constitute COGNITIVE

COMMUNICATION of other’s cerebral functions resulting in Comprehension of them as a copied Speech Analogon-Parallel, coinciding technically to the long spoken concept of Telepathy. That goes back even to the very early origination of Mental Construction’s that is to Thought and Intangible (sensed) Images’ making of Psychedesthetism<sup>\*\*</sup>. Furthermore this Brain to Brain Transmittal comprises not only cognitive but also sensory interpretations©. The quality of Perception and Interaction from person to person coincides with Reality in some fields while simultaneously and at any moment Intangible sensory and cognitive Images – Noetic forms/Gestalt<sup>\*</sup> - are realized bilaterally:

Psychedesthetism<sup>\*\*</sup> Essence in perception and comprehension ©  
Gestalt<sup>\*</sup> Noetic forms

At all time Speech interaction simulates open space conversation © 2016

## Biography

G.FAGOGENIS: Athens University Medical School Postgraduate – Degree Excellent/1975.

Year 1977/Doctorate in Medicine. Degree Excellent.

Practiced in Pediatrics in University Clinics of: ‘Evangelismos’ Hospital – Athens.

‘Agia Sophia’s’ Childrens’ Hospital - Athens.

Year 1979 Licensed for medical practice in Pediatrics.

Exercising medical profession.

Nine (9) medical works published.
